Dear Chairman, Airline Operators Committee Bangkok

Attachment 1. Yellow Fever Regulation
2. List of Dangerous Communicable Disease or Quarantinable Disease

According to the change of regulations since 1st October 2022 including 1. Lifted State of Emergency Decree in respond of COVID-19 2. COVID-19 is not quarantinable disease 3. COVID-19 is no longer be contradiction for entry into the Kingdom by immigration law. These cancellations of regulations result to be the following

1. Passenger arrival formality

1.1 COVID-19 (Notifiable Disease by Law)

Pre-entry: No restriction. No document requirement before boarding to Thailand.

Upon arrival: No screening. If anyone find the case, then please notify airport clinic (not Port Health) for clinical evaluation of severe illness. Medical cost is their own shoulders.

In the Kingdom: Passenger who has been infected with COVID-19 will seek medical assistance at all clinic or hospital. The treatment is by attending physician consideration. Closed contact is no longer quarantinable.

Mask Requirement during flight: Optional.

1.2 Yellow Fever (Quarantinable Disease by Law)

Pre-entry:

1. Restriction for passenger who depart from 42 designated Yellow Fever countries. Please see attachment.
2. Prepare Yellow Fever vaccine certificate
3. Register online on thaihealthpass.com

Upon arrival: All passengers from those countries have to show themselves at Port Health officer to verify the YF vaccine and registry into Port Health System

In the Kingdom: Suspected YF must be isolated by law.

1.3 Monkeypox (Notifiable Disease by Law)

Pre-entry: No restriction

Upon arrival:

Symptom screening by Quarantine and Immigration Officers or Airport Staff

Provide information for Monkeypox for passengers from target countries

In the Kingdom: Passenger who confirmed Monkeypox will be isolation by the clinical practice guideline.

2. Crews arrival formality

2.1 COVID-19 (Notifiable Disease by Law)

Pre-entry: No restriction. No document requirement before operation to Thailand

Upon arrival: No screening.

In the Kingdom: Crews who has been infected with COVID-19 will seek medical assistance at airline contracted clinic or hospital. The treatment is by attending physician consideration. Closed contact is no longer quarantinable.

Mask Requirement during flight: Optional.

2.2 Yellow Fever (Quarantinable Disease by Law)

Pre-entry:

1. Restriction for passenger who depart from 42 designated Yellow Fever countries. Please see attachment.
2. Prepare Yellow Fever vaccine certificate
3. Register online on thaihealthpass.com once time

Upon arrival: All crews from those countries have to show themselves at Port Health officer to verify the YF vaccine and registry into Port Health System

In the Kingdom: Suspected YF must be isolated by law.

2.3 Monkeypox (Notifiable Disease by Law)

Pre-entry: No restriction

Upon arrival: Symptom screening by Officers or Airport Staff

In the Kingdom: Passenger who confirmed Monkeypox will be isolation by the clinical practice guideline.

3. Aircraft Disinfection or Disinsection

3.1 COVID-19 (Notifiable Disease by Law)

- No requirement for aircraft disinfection
- Depend on your airline standard

3.2 Yellow Fever (Quarantinable Disease by Law)

- Aircrafts operates from 42 endemic countries must provide evidence of “aircraft disinsection” to Port Health
- Port Health will be inspection or trapping the mosquito from the aircrafts

3.3 Monkeypox (Notifiable Disease by Law)

- Recommend aircraft disinfection immediately after identify confirmed case due to highly contamination.

4. Lab testing service at arrival or transfer area

The service only in Suvarnabhumi Airport and provides

1. RT-PCR for COVID-19 and Monkeypox
2. Rapid Antigen Test (RAT) or Antigen Test (ATK) for COVID-19

5. Irregularity or Incident

- Similar protocol before COVID-19 period
- No necessary notify Port Health except flight from/to Africa (Yellow Fever check first)
- If destination still requires Lab Testing or Quarantine then consult Port Health case by case basis
- Communicate with immigration directly

6. Inadmissible/Deportee

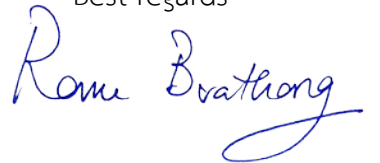

- Similar protocol before COVID-19 period
- Not necessary notify Port Health except flight from/to Africa (Yellow Fever)
- Communicate with immigration directly

7. Flight data or movement

- Cancel sending flight data/movement to EOC due to ending State of Emergency Decree
- Except required by regulator including Port Health, Immigration or CAAT

We sincerely thank you for all relevance stakeholders and partners to well cooperation for COVID-19 prevention and control measures in Thailand. And please communicate to all AOC members.

Best regards
